AERONET of things

Enhancement, Enablement and Empowerment

of the Global Aerospace Manufacturing Network

AoT's "Working in S.P.A.C.E." philosophy is at the core of its 3E consulting services. Based on the key elements of developing Smart, Pragmatic, Activated, and Cultured Environments, we discover, map, and help you reach your business goals. We don't just manage your projects, we transform them by Enhancing, Enabling and Empowering S.P.A.C.E.

PROGRAM AND PROJECT MANAGEMNENT

Translating strategy into actionable goals to ensure alignment of strategic business objectives and programmes to create change and growth. Development of operational and business capability metrics. Project scoping, plans budgets, resource allocation, and execution.

RISK MANAGEMENT

Foresight for returns on investments and projects. Highlights all potential backlash a company could face by starting a new (or even routine) endeavour.

- ***Strategic Risk,***
- ***Compliance Risk,***
- ***Operational Risk,***
- ***Reputational Risk.***
